

WASTE :
SORTING IT OUT
FOR THE GOOD
OF THE PLANET !

CARTO **SPÉ**
PACKAGING

CARTOSPÉ PACKAGING, SPECIALISTS IN ECO-FRIENDLY WASTE MANAGEMENT.

At Cartospé, we believe that economic and social development in today's world must be sustainable.

As close partners with all the waste management sector, we have created global solutions for a multitude of waste types.

Whatever your waste type may be, Cartospé has an adapted waste bin solution. Be it for everyday paper and plastics, complexe objects like dangerous, infectious or electrical and electronic waste (WEEE), our sorting bins are designed to facilitate and properly handle your waste management. For unusual or specific waste types, our qualified engineering team will lead a needs analysis to create your tailor-made disposal product.

Cartospé solutions facilitate your company's efforts for sustainable development and environmental health and safety for all.

QUALITY FOR YOUR BUSINESS, QUALITY FOR OUR PLANET.

Cartospé Packaging is committed to quality.

Our computerized production-management tools assure quick and reliable follow-up of your orders. Cartospé has been recognized by several certifying boards, and in particular has been granted FSC® certification, which promotes biodiversity of forests and sustainable development. Our company is also a certified, quality-controlled manufacturer of packaging intended for the transport of dangerous products, under a Quality Assurance Plan.
